

Book: *Dictatorship on Its Trial*. By Eminent Leaders of Modern Thought. Edited by Otto Forst de Battaglia. Translated by Huntley Paterson. George G. Harrap & Co, 1930.

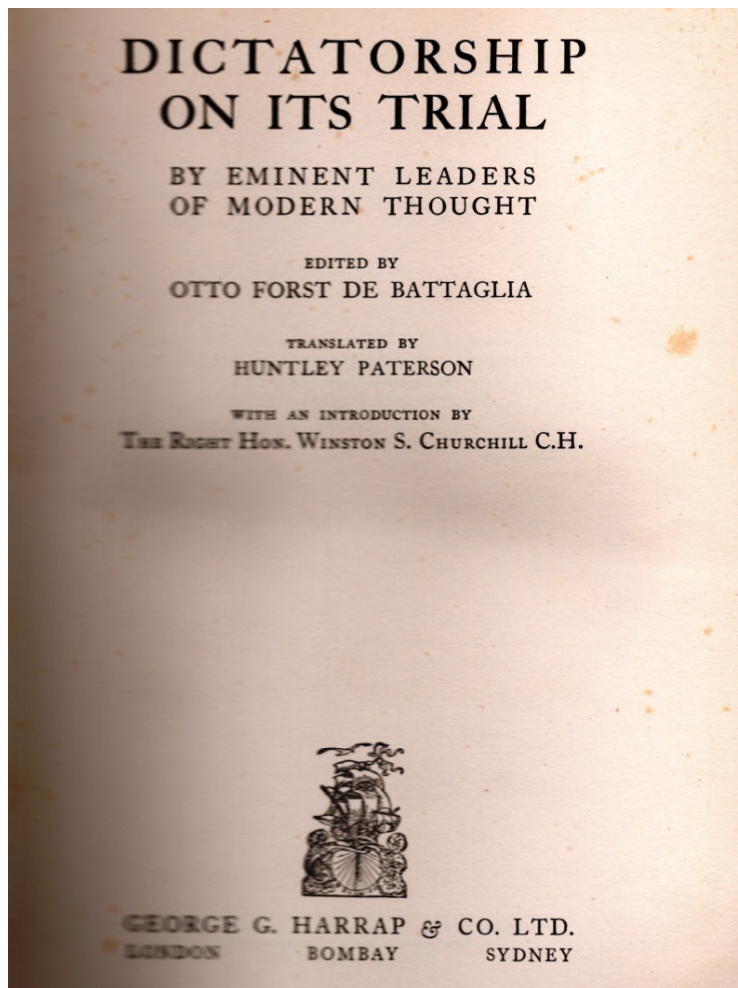

Page 107:

Science and Dictatorship

Albert Einstein

(Author of "Relativity" in which his famous theory is expounded. Professor of Physics in Berlin and President of the Akademie der Wissenschaften. Awarded the Nobel Prize for Physics in 1921.)

A dictatorship means muzzles all round, and consequently stultification. Science can flourish only in an atmosphere of free speech.

SCIENCE AND DICTATORSHIP

ALBERT EINSTEIN

*(Author of "Relativity," in which his famous theory is expounded.
Professor of Physics in Berlin and President of the Akademie der
Wissenschaften. Awarded the Nobel Prize for Physics in 1921.)*

A DICTATORSHIP means muzzles all round, and consequently stultification.
Science can flourish only in an atmosphere of free speech.
